AFPR celebrates its 25th anniversary

Dear Alain,
Dear Georges,

It is my pleasure and honor to congratulate the AFPR organization and you both in particular for the 25th anniversary.

Today we have to recognize your great contributions in the advancing and continuous evolution of "Additive Manufacturing" from very early days of "Rapid Prototyping" consistently and determined, believing in this technology and its importance.

With your activities you have bridged knowledge and experience between:

- ✓ Industry and Academy,
- ✓ Users and Researchers,
- ✓ National and International,

Thank you all for your activities and your personal engagements, the international openness in favor of "Additive Manufacturing" the "Innovations Enabling Space" of the future.

Thank you very much for the friendship and all the best wishes for the future!
Gidi

Sincerely yours,

Gideon N. Levy
